

# HANSATON wave

Embrace  
life's beauty

# Enjoy the freedom of wireless connectivity

## Connections to your mobile phone

Turn your hearing aids into discrete wireless headphones. Answer a phone call or listen to music streaming directly to your hearing aids.

## Personalized hearing experience

Change volume easily or tailor your personalized programs, maximizing your hearing experience.

Hands-free phone calls and streaming with all mobile phones or other Bluetooth® devices.\*

# Hear the important moments in life

HearIntelligence™ supports your natural hearing. It was developed by HANSATON to enhance natural functions and processes in human hearing.

- **Stay engaged:** hearing aids keep your brain stimulated by providing essential speech information
- **Communicate confidently:** Enjoy advanced HearIntelligence™ features and Bluetooth connectivity for important in-person or phone conversations.
- **Experience multidimensional hearing** and realistic connections with the acoustic environment in a multitude of social situations.

Based on proven technology, HANSATON wave covers a wide range of hearing losses and has appealing designs to meet your needs.

**HEAR Intelligence™**

\*Smartphones and traditional mobile phones with compatible Bluetooth® profiles.

## Design meets performance

The housings of the HANSATON wave hearing aids – with their special plasma coating – are dust and water resistant.

**Innovative by tradition:**

Since the inception of HANSATON in 1957,  
we have been developing innovative  
and aesthetically sophisticated hearing solutions  
to offer you more freedom and emotion.
