### Innovative by tradition:

Since the inception of HANSATON in 1957,  
we have been developing innovative  
and aesthetically sophisticated hearing solutions  
to offer you more freedom and emotion.

hearing & emotions

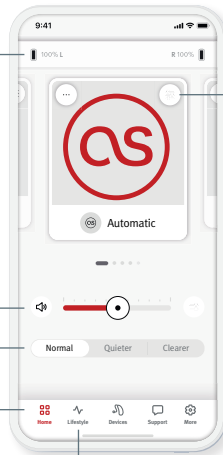

## All at your fingertips

The most important adjustments and information is available from the home screen: adjust volume, quickly switch to Quieter or Clearer settings, as well as know your current program and battery levels.

## Your lifestyle

The app can provide insights into your own listening lifestyle – how much time you spend in different types of environments. If you have rechargeable hearing aids, it can also show you your daily step count and active minutes for the day.

Your time in different listening environments

The marked environments are included in your hearing aid

Average time you have worn your hearing aids each day

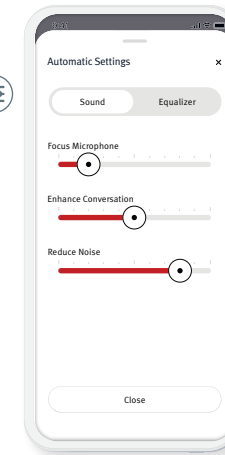

Step counter for the day\*

Active minutes for the day\*

## Advanced personalization

Each person has their own preferences. You can customize your hearing aids to your preferences and they will stay with these settings, even after a reboot.
