

Go about your day without worrying With hearing systems that adjust to your life.

Sometimes we take the simple things in life for granted... until they no longer fully function, and then we realize how important they really are. Hearing is one such example. Hearing loss makes natural acoustic perception – and thus everyday life – more difficult.

Shape your life the way you want it to be – the newest AQ SHD HANSATON hearing systems with innovative SphereHD Technology provide cutting-edge spatial acoustics, so you can experience natural hearing in all kinds of life situations.

Twenty-four hours
of guaranteed security

- Peace of mind:
24-hour battery
runtime guaranteed
- AQ SHD hearing systems
support natural hearing
intelligence
- Provides flexibility:
Requires just 3 hours of
charging

AQ SHD technology:
Awaken your natural hearing intelligence.

HEAR Intelligence™

Limitless freedom. Hearing without batteries*.

Twenty-four hours
of guaranteed security

*Rechargeable battery with lithium-ion technology.

AQ SHD technology:
Awaken your natural hearing intelligence.

AQ SHD. Limitless freedom. Hearing without batteries*.

Hearing is quality of life. The latest rechargeable hearing systems from HANSATON enable a spatial hearing experience without batteries*.

With the rechargeable AQ SHD hearing systems with lithium-ion rechargeable battery and practical charging station, you can experience unlimited freedom and gain valuable quality of life. Added convenience: No batteries need to be changed as rechargeable hearing systems function reliably without batteries. The innovative SphereHD Technology also allows a spatial hearing experience in all situations.

Provides flexibility:
Requires just 3 hours of charging

Peace of mind:
24-hour battery runtime guaranteed

More than 20 years of experience in rechargeable battery technology

Never replace another battery

Thanks to contact charging:
Feel the AQ SHD clicking into place in the charging station

IP68 certified

The plasma-coated surface protects the system against external influences such as dirt and moisture.

* Rechargeable battery with lithium-ion technology.
** Rechargeable battery with lithium-ion technology – expected running time of 24 hours when fully charged, including 80 minutes of wireless streaming.

Awaken your natural hearing intelligence with HearIntelligence™ by HANSATON.

HANSATON hearing systems support natural hearing intelligence thanks to binaural features: the high-speed detection, the innovative automatic program as well as with precise speech, localization, and optimization features. For a natural hearing experience.

Hearing without batteries*.

The powerful lithium-ion rechargeable batteries provide 24 hours of running time on just three hours of charging time.** That's not just particularly user-friendly and convenient, it also protects our environment.

Whether you're planning to be out in nature, taking a long train trip, or going on a spontaneous weekend vacation – with the AQ SHD you won't have to worry about whether there's a power outlet nearby.

AQ sound SHD

Comfort Charger

The Comfort Charger is a case, a charging station, and a drying station all in one. When used with the optionally available desiccant capsules, the Comfort Charger dries hearing systems while charging them.

Comfort Power Pack

The Comfort Power Pack charges on the go: The integrated rechargeable lithium-ion battery can power up to seven charging cycles for a pair of hearing systems.

Light Charger and Light Charger Base

The Light Charger is the perfect workplace solution. Stable and compact: Simply attach it to the Light Charger Base to give it a secure stand.

No misunderstandings. Color-coded markings make it easy to insert hearing systems correctly (blue = left hearing system; red = right hearing system).
